

Beanstack Quick Start Guide

For use with the Beanstack mobile app

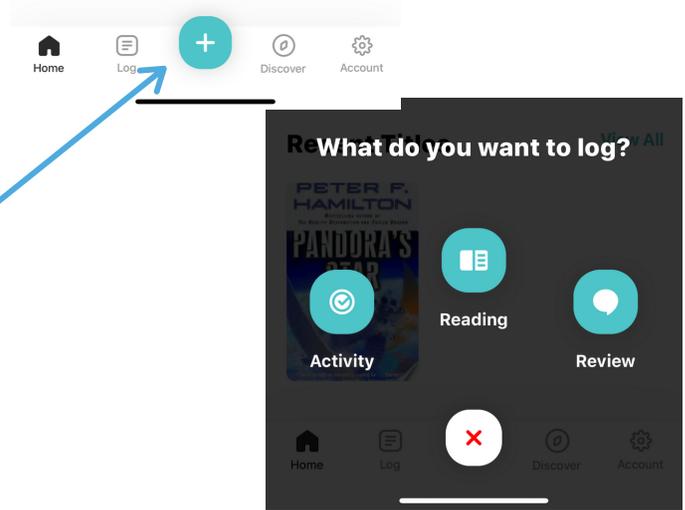

How do I log my reading?

1. Depending on your challenge, you will log book titles or reading time. Logging can be done from the home screen or within the challenge itself.

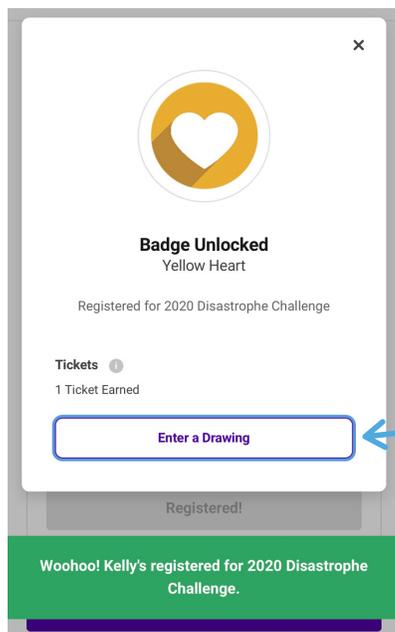

2. From the home screen, tap the blue plus sign on the bottom of your screen and pick to log reading or activities.

OR from the inside the challenge, click the "Log Reading and Activities" button.

Log Reading and Activities

What do I do with tickets I have earned from badges?

1. If the reading challenge you are in has tickets attached, that means there are prizes that you can enter to try to win.

2. When you meet certain goals and complete certain activities, you will be awarded a set number of tickets. Each ticket can be put into a prize entry of your choice by clicking the "Enter a Drawing" button.

3. Available prizes and their photo will appear for you to decide* which prize drawing to enter.

* If you change your mind on which prize you want to try to win, tickets can be added or subtracted from prize entries at any time!

What else does Beanstack do?

Beanstack gives you **reading recommendations** based on grade levels, and allows you to create a **wish list** of titles to read. Beanstack creates a list of book titles that you have logged, and keeps stats of your reading time and number of books you have logged. The creators of the Beanstack Tracker app call it the "fit bit" of reading!
